

# VEGAS *please*

*All functions come to an end but  
Vegas Please keep going*

Where Cutting Edge versus Old Skool, where Affordable Size is a Sizable Sound, where Disco meets Twenty10, where Today is mixed with Tomorrow on a foundation of Yesterday! Vegas Please is entertainment by professionals who perform day in day out; it's our passion not hobby! (Written by the Ultimate Party Band)

**VEGAS** – The entertainment capital of the world! Some remember the Vegas of old with Lola the Showgirl however the modern day Vegas is a place where cutting edge performances happen daily with an array of the world's best performers.

**PLEASE** – A desire to perform. We do it for the thrill and adrenaline we get from our unyielding jurisdiction of the dance floor. It's not our weekend hobby, it's our passion and fulltime vocation.

**CUTTING EDGE** – A band only evokes two senses in sight and sound however with these Vegas Please can successfully control your entire emotional state. With our vogue style and concert sound our small stage footprint creates a large impact to your successful event.

**OLD SKOOL** – Technology changes the world, but sometimes nothing changes. The warmth of vinyl or speaking with a human creates a far better experience than the downloadable digital age! Ask a colleague if they would rather dance in front of a DJ pumping hits from a computer or watch the magic happen as five entertaining musicians interact with you, as they display and create their stagecraft. When it's live you become part of the magic.

**AFFORDABLE SIZE** – With the current trend to save money Vegas Please have created an affordable size without compromise. With an understanding of budget constraints we have the perfect lineup of musicians who will cater to your needs.

*Classic Hits Evolve and  
Grow daily, so too does the  
Vegas Please repertoire*

**SIZABLE SOUND** – Impact comes from quality musicians meaning Vegas Please do not require backing tracks or take short cuts. Why hire musicians to play on top of a backing track that you could have downloaded from the internet? Spontaneity isn't prerecorded!

**DISCO MEETS TWENTY10** – A great band is as much about its personnel as it is what they sell. Vegas Please has the savvy song list to create the winning dance experience to suit every generation.

**TODAY** – This new band mixes the best members from some of the most highly regarded party bands and top rated TV shows with a new wave of talent who all embrace new artistic material.

**TOMORROW** – With a futuristic edge, contrasted with a complete disregard for the rules, our hard work is your reward.

**YESTERDAY** – With a carefully structured musical soundscape, Vegas Please is the winning bet.
